

## DECLARATION OF COMPLIANCE

Date : 4<sup>th</sup> March, 2025  
To : Aluform  
Product : 8156-H24 container foil (lubricated)

We hereby confirm that above mentioned aluminum foil product complies with following regulations, directives and standards:

### Regulations:

- 1935/2004/EC on materials and articles intended to come into contact with food and its repealing Directives.
- 2023/2006/EC on good manufacturing practice for materials and articles intended to come into contact with food.
- 1907/2006/EC concerning the registration, evaluation, authorization and restriction of chemicals (REACH), establishing a European Chemicals Agency, with its amending and repealing Directives.
- French Arrete of 27 August 1987 related to materials and objects in aluminium or in aluminium alloy in contact with food, products and drinks.
- Note DGCCRF Fiche 2B (relatif aux matériaux et objets en aluminium ou en alliages d'aluminium au contact des denrées, produits et boissons alimentaires)
- Italian Decree 18 April 2007 n. 76, Regulations concerning the hygiene of materials and articles of aluminum and aluminum alloys intended to come into contact with food.
- Swiss Ordinance RS 817.023.21: Materials and Articles in contact with Food.
- Denmark Order No. 681 amending Order No. 822 on materials in contact with food.
- United Kingdom SI 2012, No. 2619 The Materials and Articles in Contact with Food.

### Resolution:

- Council of Europe Resolution CM/Res (2013)9 on metals and alloys used in food contact materials and articles.

### Directives:

- 1882/2003/EC, 2004/12/EC, 2005/20/EC amending Directive 94/62/EC on packaging and packaging waste (for USA CONEG-Toxics in Packaging Clearinghouse).
- 2017/2102/EU and its amending Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS).

### Standards:

- BS EN 573-3:2023 Aluminium and aluminium alloys. Chemical composition and form of wrought products. Chemical composition and form of products.

- BS EN 602:2004 Aluminium and aluminium alloys. Wrought products. Chemical composition of semi-finished products used for the fabrication of articles for use in contact with foodstuff.
- BS EN 546-1:2006 Aluminium and aluminium alloys. Foil. Technical conditions for inspection and delivery.
- BS EN 14287:2004 Aluminium and aluminium alloys. Specific requirements on the chemical composition of products intended to be used for the manufacture of packaging and packaging components.

We also declare that the components of the surface lubricants used as manufacturing auxiliaries during cold rolling processes of our foil products comply with:

- U.S. Food and Drug Administration FDA CFR Title 21 §178.3910.

Lubricant applied to the surface of the foils is free of GMO and is of non-animal origin and the components of the lubricant comply with:

- U.S. Food and Drug Administration FDA CFR Title 21 §178.3910(b).

Above mentioned products are certified by NSF International (NSF/Ansi 51 – Food Equipment Materials) and KOSHER.

Additionally, we declare that the substances listed below are not used and not intentionally added during manufacturing or in the formulation of our food contact products and therefore they are not expected to be present in our products.

- endocrine disruptor (ED) substances.
- genetic modified substances.
- dual use additives.
- bisphenol A (BPA), bisphenol B.
- PFAS (per- and polyfluoroalkyl substances).
- ortho-phthalates.
- nanomaterials.
- asbestos.
- biocides.
- NIAS (Non-Intentionally added substances)
- epoxidized soya bean oil (ESBO)
- allergens listed in 1169/2011/EU and its amending regulations.
- animal derived materials (ADM),
- natural rubber latex or dry natural rubber.
- MO(S)(A)H (mineral oil saturated/aromatic hydrocarbons) according to 2017/84/EU

The storage and processing of acidic, alkaline or salty foodstuffs in direct contact with uncoated aluminium foils should be avoided. End users should be informed about this issue with proper labelling.

Please note that our company does not produce end products, therefore cannot be held responsible for any discrepancy with this declaration due to second/thirds parts' processes. The above statements apply only to products as supplied by Assan Alüminyum San. ve Tic. A.Ş.
